

SYMPO Programme, 7 August 2026

Campus Poppelsdorf Lecture Hall Centre
Friedrich-Hirzebruch-Allee 5/corner of Reinhard-Selten-Strasse
53115 Bonn

08:45 - 09:30	Registration	
09:30 - 09:35	Welcome	Prof. Dr. Nikolay Kornienko University Bonn
09:35-10:05	Sustainable synthesis of microporous frameworks for energy storage and gas adsorption	Dr. Gündog Yücesan KIT, Karlsruhe
10:05-10:35	Carbon dioxide electroreduction in acidic media	Dr. Yong Zhao The University of Newcastle, Australia
10:35-11:05	Harnessing LMCT in Iron-Photocatalyzed Alkene Unsymmetrical Heterodifunctionalization: A Platform for Orthogonally Activatable Building Blocks	Dr. Amrita Chaudhuri University Bonn
11:05-11:25	Coffee break	
11:25 - 11:55	Coupling Electrochemistry and microbiology for the production of medium chain fatty acids from wastewater and flue gases	Allan Babu Ruhr University Bochum
11:55 - 12:25	CO ₂ Electrolysis at the Crossroads: Catalysts, Feeds, and the Path to Industrial Use	Dr. Kevinjeorjios Pellumbi Fraunhofer UMSICHT Ruhr-University Bochum
12:30 - 14:00	Lunch break	
14:00 - 15:15	Poster presentation with coffee break	
15:15 - 15:30	Group picture	
15:30 - 16:00	Reaction-Induced Degradation of Electrocatalysts	Dr. Serhiy Cherevko Forschungszentrum Jülich
16:00 - 16:30	Metal-Arene π -Complexation-Guided Site-Selective C-H Borylation of Polyarenes	Dr. Anup Mandal University Bonn
16:30 - 16:45	Poster awards + Closing	
16:45- 17:15	Walk/drive to the Institute of Inorganic Chemistry, Gerhard-Domagk-Strasse 1, 53121 Bonn-Endenich	
17:15	BBQ
